

Tanner Selected as Master Distributor for Parker Lock-Out® Maximum Security Screw

Tanner Bolt & Nut Inc. of Brooklyn, NY is pleased to announce agreement with Parker Fasteners of Buckeye, AZ as the exclusive United States master distributor for its Lock-Out® maximum security screw.

Lock-Out® is a new and innovative security fastener that features a unique patented drive that is engineered to perform in high torque applications. The distinctive oval center pin and multiple drive/key combinations gives customers the option to select higher levels of security in a tamper-resistant fastener. Installation bits are not sold commercially. Installation bits will only be sold through Tanner.

Lock-Out® is available in a multitude of head styles, threads, diameters, lengths, materials, and finishes. Diameters range from 1/4"-5/8", M1.4-M16, and #0-#10, with lengths up to 12" for certain diameters. Materials available include carbon steel, stainless steel 302HQ, 304, 316, A286 & brass alloy steel 4037, 8740.

For absolute maximum protection of your property or product, Lock-Out® can be manufactured with a one-of-a-kind, drive pattern that is exclusive to your company.

Tanner will receive its initial stock order in late February 2021 and will continue to bolster its inventory throughout the year. Made-to-order product typically will ship in 8-10 weeks.

Tanner, headquartered in Brooklyn, NY is a nationwide distributor of premium industrial and security fasteners, code compliant anchors, safety products, and power tool accessories. For over 40 years, Tanner's knowledgeable sales and support staff has committed to a customer first approach, delivering innovative quality products.
